WORKING PAPER

Project: 8925 (P₂)
Date: 890804
Viewer: 018
Session: 01

SUMMARY OF INFORMATION:

1. (S/NF/SK) There were so many questions on this tasking that they were taken singly, rather than muddying up the session. Not all were addressed, due to time constraints, and they were addressed as they came up in the session, rather than in order. They are:

- a. Last location where Higgins was alive. The location is to the east of a mountain which is labeled on map (P. 7A) as Q. es Sauda. (see maps, page 3 and 7A)
- b. Circumstances surrounding Higgin's death: Not addressed in this session.
- c. People involved in Higgin's death: Not addressed in this session.
- d. Reasons for Higgin's death: Not addressed in this session.
- e. Time as specifically as possible: I got Tuesday morning, local (1 Aug 89) time. (see time line, page 4).
- f. Are other hostages currently grouped and if so, how: The other hostages are currently grouped in a building which may be slightly underground. The area of the building is a long corridor with small rooms off it. There is one thick, heavy door which opens into the corridor, at the top of some steps which lead down into the corridor. The door has heavy and ornate black latchwork which is booby-trapped to explode the rooms the hostages are in.
- g. Where are they located? I got repeated perceptions of their

location being the same as that of Higgins (see dowsing maps, page 3 and 7A).

2. (S/SK/NF) Questions not addressed in this session will be taken up in a later session.
